## THE ABS MISSION

---

*Our mission is to assist and encourage informed decision-making, research and discussion within governments and the community by providing a high-quality, user-oriented and dynamic statistical service; we will actively coordinate statistical activities across government agencies and promote the use of statistical standards.*

---

## SERVICES AVAILABLE FROM THE ABS

We can provide you with information, advice and a range of statistical products that will help you make the right decisions - whether you need the information for planning, performance measurement, investment decisions, research or keeping up with trends.

## ELECTRONIC SERVICES

A growing range of our data is available on electronic media. We have a range of summary information available on VIATEL (Key#656). Our Telestats service can provide you with a number of major economic indicator publications which you can download into your PC soon after embargo on day of release, as well as a range of tailored foreign trade information. We can also supply a range of our information on floppy disk or CD-ROM. For more information on our electronic services, see the special section in the centre of this publication.

## BOOKSHOPS AND SUBSCRIPTIONS

We have over 500 publications available on subscription basis, and our Bookshops can meet your needs for one-off purchases. If you would like to receive any of our publications on a regular basis, you can become a subscriber, have your publications mailed to you on day of release, and renew your requirements at any time. Catalogues of our publications and products are available free on request from our Bookshops. See the back page for full address details.

## INFORMATION CONSULTANCY

The Information Consultancy Service provides personalised assistance to meet more complex information needs. Our consultants can help you if you have special information requests, such as tailored data compilations or in-depth data investigations. Our consultants are experienced in providing the right advice and assistance for matching our information to your needs. Call them on the inquiries number listed on the back page.

# ELECTRONIC DELIVERY OF STATISTICS

## WE OFFER THE FOLLOWING ELECTRONIC DELIVERY SERVICES

**AUSSTATS** - This service provides on-line access to a range of up-to-date ABS time series data via the publicly accessible Paxus ComNet computing network.

It consists of a time series database together with a comprehensive range of facilities for storing, retrieving, manipulating and displaying the data.

The database, comprising some 60,000 time series is updated daily and covers important socio-economic subjects ranging from Agricultural statistics to Transport and Tourism data.

Updated data is normally released on AUSSTATS at the same time as the corresponding publications are released at ABS offices.

**VIATEL** - VIATEL is Telecom Australia's national videotex service combining two-way (interactive) communications, with visual display of text and graphics.

The ABS database on VIATEL provides users with short summaries of the most recent social, economic and population statistics.

These range from consumer price index and balance of payments to motor vehicle registrations and average weekly earnings. An important feature of this service is that it provides instant access to the statistics at release.

**TELESTATS** - The TELESTATS services currently available from us are the Trade Special Returns and the Main Economic Indicator (MEI) Publications. These statistics are delivered via the Telecom Plus Keylink electronic mail service.

Trade Special Returns are cross classified tables of imports, clearances or exports data tailored to the

individual needs of customers who subscribe to the service.

Customers who choose the TELESTATS option for delivery receive their tabulations in their own Keylink electronic mail boxes in a form suitable for immediate capture and subsequent manipulation on their own computers.

*Main Economic Indicators* are a series of 26 monthly and quarterly publications presenting statistics which directly reflect the state of the Australian economy.

The ABS has embarked on a program aimed at making all Main Economic Indicator (MEI) publications available to the public via multi-access electronic mail boxes on Telecom's Keylink system.

The service commenced in August 1989 with the monthly Balance of Payments Bulletin (5301.0) and we plan to make all MEIs available via this mechanism over the next twelve months.

Publications to be released under the Main Economic Indicator program include:

6401.0	Consumer Price Index,
5206.0	Quarterly Estimates of Income and Expenditure,
6302.0	Average Weekly Earnings,
6407.0	Price Index of Materials in Building,
6408.0	Price Index of Materials in Manufacturing,
6411.0	Price Index of Articles Produced by Manufacturing,
5202.0	National Income and Expenditure,
5625.0	Capital Expenditure.

Each MEI delivered comprises the complete data, tables and text of the corresponding MEI publication, in comma delimited ASCII format suitable for downloading and subsequent analysis by spreadsheet programs such as LOTUS 123, EXCEL or Multiplan.

MEIs are released on this service at the same time that their corresponding publications are released by ABS offices.
